## **ADDITIONAL ITEMS**

Review and discussion of the proposed Zoning Ordinance Amendment for Planned Residential Development (PRD) took place. A motion was made by Mark Bedle and seconded by Daniel Stauffer recommending adoption of the proposed Zoning Ordinance Amendment for Planned Residential Developments (PRD). **No comments received.**

A review of the proposed Chapter 91 Rental Property Ordinance which would require a property owner who wishes to rent property to obtain a license every three years and also requires a life-safety inspection be completed. Some of the committee members felt this ordinance as written is too intrusive. Mr. Weber explained the intent of the ordinance is for life-safety, not necessarily to bring the structure totally up to code. Mr. Stauffer stated if that is the intent, that is not what the proposed ordinance states, as it specifically states "the Dwelling or Room shall be inspected by the Building Code Official for compliance with Building Codes, Fire Prevention Codes, Property Maintenance Codes, the Plumbing Code, and the Electrical Code enacted in the Township." Mr. Stauffer felt this would create a hardship for current rental owners, stating these pre-existing units should be grandfathered from current codes, just as houses built prior to existing codes are grandfathered at time of re-sale. Mr. Stauffer suggested if a rental ordinance is considered it should apply to Commercial Rental Units of 3 units or more, and/or to new commercial rental units available after the ordinance is adopted. Mr. Stauffer feels this is an infringement on property owner's rights as well as an invasion of tenant's privacy and is 100% against the ordinance in its current proposed form. Mark Bedle agreed he is also against adopting the ordinance as proposed.

### **Public Comment:**

**Jim Treichler**, stated the fee associated with the rental license would have to be very reasonable since he is already absorbing the cost of sewer on some of his rental properties.

Members asked how much the license fee would be and would it be based on the number of units? Mr. Weber stated the fees would be determined by the Board of Supervisors. Mr. Stauffer suggested giving recommendations of what could be included in the ordinance but would not recommend approval as it has been presented. A motion was made by Mark Bedle and seconded by Daniel Stauffer recommending rejection of the Chapter 91 Rental Property Ordinance in its current proposed form. **No comments received.**

It was stated if the Board of Supervisors would like to do something like this in the future the Planning Commission would recommend that all current landlords be notified in advance so they could obtain a copy of the ordinance prior to it being passed. Mr. Stauffer also stated he feels this should only apply to commercial rental housing that is newly constructed or renovated after the implementation of the ordinance. Mr. Stauffer stated his preference would be to not have the ordinance however if the Board of Supervisors are so inclined to pass the ordinance he would want to limit the

language in the ordinance and make some recommendations and have some dialog with the Board prior to the adoption of an ordinance. The Planning Commission would recommend prior to any action being taken on this ordinance, current landlords should be provided a copy of the draft ordinance.

A review of Chapter 88 Property Maintenance Ordinance took place. Mr. Treichler pointed out the property located at the Waste Water Treatment Plant has very high weeds and the township should take care of their own property before they adopt an ordinance on property maintenance. Mr. Treichler also stated the township has the equipment that the taxpayers pay for, why are they not cutting the weeds. A motion was made by Mark Bedle and seconded by Elain Pennington recommending approval of the proposed Chapter 88 Property Maintenance Ordinance. **No comments received.**
