

Santa Claus will once again be arriving from the North Pole courtesy of Eastern Berks Fire Department!

Date: Saturday, December 10, 2022

Time: Santa will be starting his tour at approximately 1:30

Santa and friends will be starting their route upon leaving the park in Bechtelsville. Santa will proceed down Main Street towards Barto and will first travel down Spring Street and turn right onto Chestnut Street back to Main Street. He will then travel down Limekiln Road to Route 100 and make his way to Spring Valley Village. Santa may not be able to make it down every street in that development, so be sure to listen and possibly have to say hello from the end of your road. Santa will then take a trip onto Old Route 100 where he will go past the Sugar Maple Development. He will not be able to turn down into the development as it would be difficult to turn all of the fire trucks around, so please come up to the entrance area to say hello as he drives past. He will then travel down Barto Road across Route 100 to the Reserve at Bally Springs around the developments and then make his way towards Gehringer Road to Hoffman Estates. Santa will then exit Hoffman Estates and travel down County Line Road to Back Country Road and make his way around to Niantic Road where he will travel to Apple Street. Santa will then make his way to Victoria Village and will come back out onto Main Street in Bally and visit the neighborhoods in Bally,
